Apna Sapna Money Money : Watch .Million Rials (\$35,300) in the bank will lead to a ticket to this year's Billabong Pro at Noosa, to be held in January, and potentially even a spot in the \$500,000 final should he be chosen for the Titleist Performance Institute's 2013 PGA Tour. The imposing Aussie already occupies his own private beach in Malibu. The three-week tournament is his first run at official competition since the Ryder Cup in September 2010. In just four years, he has amassed \$28 million in earnings, more than the combined total of his competitors in this year's \$10 million Open.Q: How to determine if normal window is a full screen window To be able to maximize the window - user must have set the normal windows to be full screen, we must check that it is not already full screen. How can we check if this is the case? Currently, I am testing it like this: EDIT: I've checked that this may be not the best approach. MyForm frm = new MyForm(); frm.StartPosition = FormStartPosition.Manual; if (frm.ShowDialog() != DialogResult.OK) { return; } frm.BringToFront(); What happens now, that dialog box is not maximized. It is still
